#### Key

The following symbols describe the performance features of the relevant models:

### STIHL EC technology The brushless electric

The brushless electric motor (EC) from STIHL is energy-efficient

and virtually wear-free, thanks mainly to the upstream STIHL EC electronics. As an intelligent control centre it always detects the battery inserted in the tool and supplies the EC motor with the correct power for the battery. This ensures that optimal power is always supplied to the tool – consistently throughout the entire battery discharge process.

#### Use in the rain

STIHL cordless power tools with this symbol can also be used in the

rain. Indications on the device and in the user manual must also be taken into account. Please note that rain, mist and other dampness may differ in intensity, and the tools cannot be used in extreme conditions. Keep the batteries out of salty environments and away from contaminated liquids. Dry the battery and tool after use. In general, chargers may only be used in dry areas.

#### Use without ear protection

The cordless technology means that these tools are the perfect

solution for noise-sensitive areas such as hospital gardens, parks and residential areas. Follow the instructions in the user manual.

for each product so that you're always best equipped for your work. In making recommendations, we take into account the ideal combination of maximum power to performance, sufficient battery runtime, lowest possible weight and balanced weight distribution.

Everyone has different preferences when it comes to creative garden design. But one thing is indisputable: If you are passionate about gardening, handling is paramount. You can rely on STIHL cordless products 100%. Designed specifically for working in small gardens, the brushcutter, hedge trimmer and blower are easy to use and ready for operation right away, thanks to their integrated battery. Just the thing when your passion for gardening draws you outdoors.

## Charge, switch on, get started!

With the new STIHL cordless products, you can get started at any time. Whether you want to cut back hedges, clear leaves or mow the lawn – with the long-lasting lithium-ion batteries, our quiet garden helpers always have enough power. Perfect for all those outdoor jobs at home!

Order No. 4511 011 3500

The control display gives you a constant overview of your tool's charging status.

- 1 HSA 25 // Cordless shears for trimming smaller hedges and ornamental trees. Double-stroke blade for strong cutting and low vibration, grass-cutter attachment for cutting lawn edges on the terrace, flowerbed and around the edge of the house. For working close to the ground, we recommend the useof the telescopic shaft. (The battery only fits the HSA 25.)
- HSA 45 // Lightweight cordless hedge trimmer with good cutting performance for trimming twigs and thin branches. Single-sided double-stroke blade, integrated cut protection, screw-on tip protection and integrated battery with charge level indicator.

3 BGA 45 // A handy cordless blower for cleaning small areas in your outdoor space. Round nozzle, easy to use, integrated battery with charge level indicator.

Order No. 4513 011 5900

The HSA 25 is also suitable for particularly dense, fine flaky shrubs.

#### STIHL cordless products // Brushcutters

Order No. 4512 011 5700

FSA 45 // Compact cordless brushcutter for easy trimming and clearing work. Shaft and handle that can be adjusted without the need for tools, adjustable mowing unit working angle, for vertical edge trimming and other tasks, PolyCut blade included, possible to switch to mowing lines without need to change the mowing head, spacer bracket, integrated battery with charge levelindicator.

#### Overview of battery ranges // STIHL cordless products

① Battery life durations and area specifications are estimates, and may vary depending on how the tool is being used and what is being cut.

Do you love demanding challenges in your own garden? Then the STIHL cordless power system COMPACT is the right choice for you. The battery has enough power to deal with your hedge, lawn or leaves. And the best thing is that with all the performance of STIHL, these quiet powerhouses are still astonishingly lightweight – so you can relax and meet any challenge.

Leaves trimmed. Wood sawn. Lawns maintained. Hedges cut. And you are more relaxed than ever.

# A system with plenty of options.

Ambitious gardeners will enjoy the STIHL cordless power system COMPACT. Within the system, the compact battery fits every tool, from the hedge trimmer to the brushcutter, you can comfortably complete all your tasks with a battery that's easy to replace when you need to.

Replacement battery: The battery is loaded externally and then secured in the battery shaft. The standardised shape of the AK batteries and the battery shaft mean that every AK battery can be used for any COMPACT tool – and a single battery can be used for several tools.

AK //Lightweight lithium-ion battery with charge level indicator (four LEDs). Compatible with the STIHL cordless power system COMPACT. Available in three different capacities: AK 10, AK 20 and AK 30.

AL 101 // Standard charger with operating mode indicator (LED) and passive battery cooling.
230 V. Compatible with STIHL AP and AK batteries. Cord wrap with Velcro. Wall mountingpossible.

## Cut better

with powerful battery technology from STIHL.

ASA 65 // Powerful cordless pruning shears for cutting vines and similar woods. Robust aluminium housing, ergonomic handle shape, electronically adjustable blade opening, easy blade change, suitable for right and left-handed-users, delivered in a sturdy plastic case.

Order No. 4861 011 6220

Depending on your needs, you can choose the "proportional cut" or "pulse cut" settingwhile you work.

ASA 85 // Powerful cordless pruning shears for pruning work in public gardens, orchards, tree nurseries, and for viticulture. Cuts branches up to 45 mm thick, sturdy aluminium housing, ergonomic handle, electronically adjustable blade opening with four levels, delivered in a sturdy plastic case.

Order No. 4861 011 6200

STIHL cordless power system PRO // Sweeping machine

The KGA 770 works perfectly on a huge range of surfaces.

KGA 770 // Cordless sweeping machine for working on large areas both indoors and outdoors. STIHL MultiClean PLUS sweeping system, 8-level central height adjustment, ergonomically shaped 2-level height adjustable push bar, lateral wheels, transport handle, can be stored upright to save space, four-year durability warranty on the low-wear nylon bristles. Easy and effortless to push due to the cordless operation of the circular brushes and power sweep. This enables thorough cleaning of edges and corners, even when the machine is stationary.

Order No. 4860 011 4703

#### **Applications**

#### Indoors:

- interlocking paving stones (e.g. tiles or granite)
- Sealed floors

#### Outside area:

- Asphalt
- Exposed aggregate
- concrete paving stones (e.g. hexagonal or blockpavers)
- Cobblestones

TSA 230 // Manoeuvrable cordless cut-off machine for wet cutting indoors and out. 230 mm cutting wheels up to 70 mm, water connection with ball valve and hose coupling, spindle lock, maintenance-free beltdrive.

Order No. 4864 011 6600

#### Useful accessories

The STIHL range includes high-quality diamond abrasive wheels for concrete, asphalt and natural stone as well as resin-bonded cutting wheels for steel, asphalt and stone.

The depth stop with vacuum support enables dust-free dry cutting of mineral construction materials, indoors and out. Features precise and infinitely variable adjustment of the cutting depth.

AL 500 Order No. 4850 430 5700

### **Tool classes**

With the cordless system PRO, STIHL offers the perfect solution for any application. If you need maximum freedom of movement, tools with a battery shaft are the right choice. If on the other hand you want minimum weight for long periods of work, tools with a connectingcable are best suited to your task.

Tools with a battery shaft
The battery shaft is encased in
the tool housing. The battery
can be easily removed by
loosening the locking lever.

Tools with a connecting cable
The connecting cable with plug
connects the STIHL AP or AR
batteries with the device. This
means that the battery can be
conveniently worn on the body.

Makes it possible to transfer energy between a STIHL AP battery and a device with a connecting cable. Can be combined with the battery belt carrying system.

With integrated electronics for overload switching with an acoustic signal.

Order No. 4850 440 5101

Accessories: AP adapter. The AP adapter is needed to transfer power between a STIHL AP battery or a STIHL AR battery and a power tool with a battery slot in combination with the AP holster with connecting cable.

Order No. 4850 440 0505

Accessories: additional weights for the AP adapter. For attachment to the AP adapter to improve the balance of the tool, e.g. the FSA 90, approx. 500g. Order No. 4850 007 1001

Comfortable, lightweight carrying system for up to two AP batteries. Can be used in combination with an AP holster and a connecting cable as an alternative to AR backpack batteries. Suitable for cordless power tools with a connecting cable or battery shaft via an AP adapter.

Order No. 4850 490 0400

#### **Battery boxes**

For space-saving and convenient carriage of batteries and charger. Compatible with the Sortimo L-BOXX and Sortimo Globelyst in-vehicle systems.

For four batteries or two AP batteries and an AL 300 or AL 500 charger.

Order No. 0000 881 5605

For AP or AR batteries and chargers. **Order No. 7013 200 0004** 

### Battery carry bag

Lightweight, hardwearing bag for easy and clean storage of accessories for STIHL cordless tools. For a battery with a charger.

Order No. 0000 881 0520

For retrofitting to all FS harnesses in the ADVANCE series without comfort carry rings. With a belt adapter for attaching the support cushions for FSA and BGA to the AR backpack batteries' carrying system and hip belt of the AR backpack batteries.

Order No. 0000 007 1045

Lid for AP battery shaft

For covering the battery slot on STIHL PRO cordless power system battery-powered tools. Protects against dust and dirt during longer periods of storage.

Order No. 4850 602 0900

# Sturdy and ergonomically shaped belt with comfortable harness for weight distribution across hips and shoulders.

Reduced total weight in the hand, as the battery in the AP holster with connecting cable is worn on the belt. Power is supplied by combining with additional accessories, such as the AP holster with connecting cable for tools with a socket, and additionally with an AP adapter for tools with a battery slot.

Order No. 4850 490 0500

#### Accessories: pocket for battery belt.

Can be used to easily carry another AP battery or accessories such as safety glasses, gloves and resin remover spray. For attachment to a battery belt.

Order No. 4850 491 0101

Foot

Foot for protecting the batteries from contact with the ground. Additional handle for temporary shaft extension, for HTA 65, HTA 85 and HLA 85. Included in the scope of delivery with the HT 103 and HT 133.

Order No. 4857 007 1001

Recommended attachments Reduced tool performance

① Charging times in minutes to 80% capacity/100% capacity

② The battery working times and area specifications for each battery charge are estimates and may vary depending on how the tool is used and what is being cut

Working times in combination with other KombiTools are provided at www.stihl.com/battery-life
 Level 1 / level 2 / level 3

⑤ Level 1/level 2/level 3/boost

<sup>©</sup> Current delivery dates can be found at www.stihl.com

# The right cordless tool for every task
