## The STIHL TSA 230 Accessories

### Accessories

- Cutting wheels**  
 STIHL cutting wheels feature high quality, a long service life and are the perfect match for STIHL cut-off machines. We have the right cutting wheel for every material.
- Pressurized water container**  
 This 10-litre pressurized water container is the mobile water supply for a clean wet cut, even on construction sites with no water connection.
- Depth stop with suction stubs**  
 The depth stop with suction stubs allows you to dry cut mineral components both indoors and outdoors with minimal dust.

Spindle lock	●
Central main switch	●
Recommended battery	AP 180

\* Excluding cutting wheel and battery  
 \*\* K factor according to Dir. 2006/42/EC = 2 m/s<sup>2</sup>  
 ● Standard

### Compact cordless power

STIHL cordless technology allows the TSA 230 to start easily at the touch of a button. It also enables cordless and flexible operation as well as emission-free indoor and outdoor use. The STIHL TSA 230 is part of the STIHL battery modular concept.

### Light, manageable and well-equipped

The light weight of the TSA 230 combined with its ergonomic handle and 70 mm cutting depth make it the ideal tool for a range of applications. In addition, thanks to the water connection and suction stubs, you can cut both indoors and outdoors completely dust-free. The brushless EC motor is incredibly efficient and reduces maintenance expenses.

NEW  
 The STIHL TSA 230 cordless cut-off machine

## The many benefits of the STIHL TSA 230

Small in size, big in action: The new STIHL TSA 230 is the first battery-powered cut-off machine with a 230 mm cutting wheel, and it is particularly light and small at only 3.9 kg (without battery). Emission-free cordless technology ensures clean work, both indoors and outdoors. The standard-fitted water connection and optimal accessories for attaching to a vacuum cleaner ensure effective dust control when cutting. With a cutting depth of up to 70 mm, the small TSA 230 is equipped for a variety of applications.

Precision work  
with ease.

### Compact cordless power

#### ■ Unrestricted mobility

Unbelievable flexibility: The cordless battery technology of the STIHL TSA 230 opens the door to countless possible uses, even in places with no electricity.

#### ■ Clean work, both indoors and outdoors

Light on emissions: As a completely emission-free cordless power tool, you can use the TSA 230 even in confined spaces. The integrated moisture protection also allows for outdoor use in bad weather.

#### ■ Starts at the touch of a button

Power at your fingertips: The cordless cut-off machine starts quickly and easily at the touch of a button.

### Light, manageable and well-equipped

#### ■ Lightweight and versatile

Small and compact with cordless power: With a weight of only 3.9 kg (without battery), a 70 mm cutting depth and cordless battery operation, the TSA 230 sets new standards in terms of flexibility and handling in tight spaces.

#### ■ Ergonomic handle

It's all in your hands: The ergonomic, curved handle offers a secure grip in any working position, allowing precise control.

#### ■ Dust-free and clean cutting

Say goodbye to dust: The standard-fitted water connection and suction stubs ensure optimal dust suppression. That means clean work, both indoors and outdoors.

#### ■ High-quality features

Comfortably equipped for hard work: The TSA 230 has a spindle lock so you can easily change cutting wheels, a rundown brake for fast stopping and a central main switch to turn it off completely.

#### ■ Low-maintenance and efficient motor technology

Always ready for use: The brushless EC motor with maintenance-free belt drive and enclosed control unit is particularly low-maintenance and durable. The highly-efficient EC motor converts battery power into excellent performance.
